

VIKAS INCINERATOR

SINCE 1992

Vikas Incinerator is a 9001: 2008 certified company designing and manufacturing all types of Incinerator Systems, since 1992. We are leading the engineering industry with respect to activities of supplying and manufacturing Incinerator to chemical plants, pharmaceuticals, environmental projects, etc.

Since the last 20 years, Vikas Engineering has manufactured incinerators through detailed, engineering, manufacturing, and installation of incinerators system from a capacity of 2KG/HR UP TO 5000KG/HR for various waste materials such as hazardous wastes, Medical Wastes, Solid wastes (and semi solid), liquid wastes, and municipal wastes and many other types of wastes.

We have always upgraded ourselves with the latest technological changes and have manufactured incinerators for government, semi government, corporates, and the private sector. We have successfully installed more than 250 systems with utmost client satisfaction.

Our Work Place

We have the best engineers in the field of manufacturing incinerators and have the best work culture any company can provide to its employees.

We are proud of the work culture in our company which has been the spearhead of our success.

Our Products

We manufacture a range of products such as Incinerator Systems, Reaction Vessels, Pollution Equipment, Effluent Treatment Plants, Chemicals Autoclaves etc.

We have successfully mastered the art of manufacturing the best products with the best efficiency.

We are manufacturer:

Bio-Medical Waste Incinerator System

Industrial Waste Incinerator System

Liquid Waste Incinerator System

Solid Waste Incinerator System

Pharmaceutical Waste Incinerator System

Municipal Waste Incinerator System

Certificate

This is to certify that

VIKAS INCINERATOR

C/1/B-138, Phase -II, G.I.D.C, Vatva, Ahmedabad-382 445. (Gujarat), India

has been assessed and certified by SGC as meeting the requirements of

ISO 9001 : 2008

Quality Management System

For the following activities:

Manufacturing of Incinerator Systems, Chemical Plants & Machineries, E. T. P. Pollution Control Equipments, Fabrication and O & M of Incinerator Systems

Initial Date of Certification: Not Applicable

Current Date of Certification: 05-January-2016

Date of Expiry: 04-January-2018
(Subject to Filled Surveillance Mark Present)

1st Surveillance Audit December 2016

2nd Surveillance Audit December 2017

Certificate Number: Q/XIINI/XXIII25/024

ANZSIC Code: C - 2869

JAS-ANZ

Bio-Medical Waste Incinerator System

The Bio-medical Wastes means; soiled or blood-soaked bandages, discarded surgical gloves after surgery, IV sets, Urine Bags, Aprons, injections, Syringes, needles, culture dishes and other glassware, discarded surgical instruments scalpels, sharps and needles used to give shots or draw blood, cultures, stocks, little blades, swabs used to inoculate cultures, removed body organs like tonsils, appendices, limbs, etc. Discarding of Bio-medical waste is a must as it is one of the dangerous wastes for human life. The Discarding of this type of waste is only possible with the correct incinerator system.

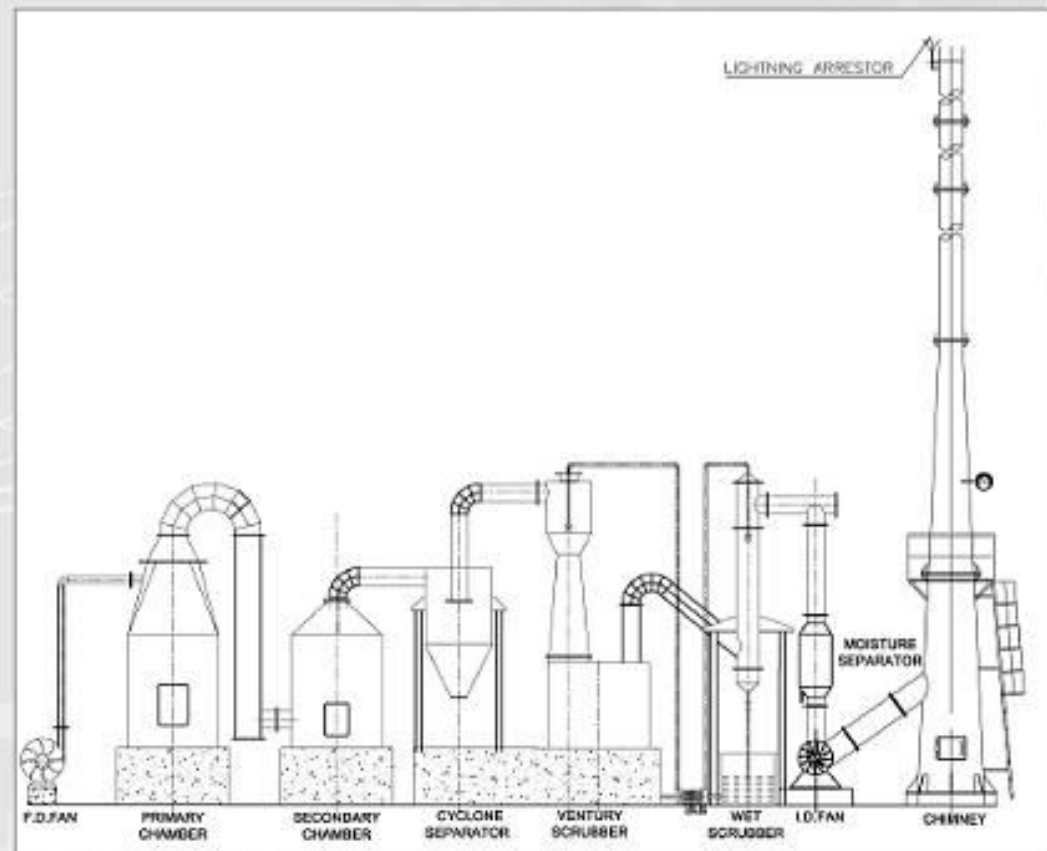

Liquid Waste Incinerator System

Liquid waste means any type of waste that is in liquid form; from any industry like Pharmaceutical, Chemicals, Petro Chemicals, Automobile, Textile, Hospitals, Slaughter house, Laboratories, Municipals, etc.

Liquid wastes also consist of complex mixtures of a large variety of compounds. Its Discarding / incineration needs careful and thorough analysis for safe disposal. We manufactured & Exported all kind of Solid / Liquid Waste Incinerator and Having different designs like Oil Fired, Gas Fired, electrically operated in different Sizes. Please forward your valuable enquiry for any kind of solid / liquid Waste. And enlist our company with your August Organization.

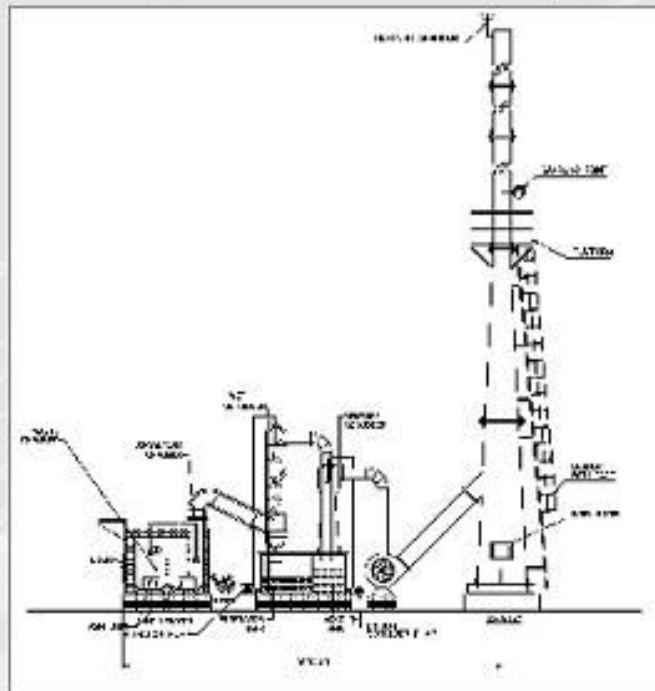

Solid/ Pharmaceutical Waste Incinerator System

The Pharmaceutical Wastes means; any soiled or liquid waste that is generated while research & development, sampling, testing or production, mainly in Pharmaceutical industry.

Discarding of Pharmaceutical waste is a must as it is one of the hazardous wastes for human life and Global Environment. The Discarding of this type of waste is only possible with the correct incinerator system. We manufactured & Exported all kind of Solid / Liquid Waste Incinerator and Having different designs like Oil Fired, Gas Fired, electrically operated in different Sizes. Please forward your valuable enquiry for any kind of solid / liquid Waste. And enlist our company with your August Organization.

Advance Sludge Treatment Technology

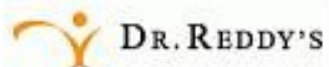

We manufactured & Exported all kind of Solid / Liquid Waste Incinerator and Having different designs like Oil Fired, Gas Fired, electrically operated in different Sizes. Please forward your valuable enquiry for any kind of solid / liquid Waste. And enlist our company with your August Organization.

Our product standing is a reflection of our illustration that stands infinite in relation, through quality business-client interface.

Our reputed client list incorporates:

Biotechnology
